GOSLING CATALOGUE

2014 season

For 2014 we can offer 3 types of gosling, the Chiltern White, the Chiltern Grey and the Chiltern Guinea.

Chiltern White can reach live weights of 6-7kg with a high meat yield.

Chiltern White females are also available for egg production, reaching peak laying performance in their 3rd year.

Chiltern Grey can reach larger weight of 6.3 to 7.5kg with a very high meat yield.

New for 2014, the Chiltern Guinea is a smaller final goose of about 4kg.

Chiltern Guinea females are also available for seasonal egg production, laying from January to July, reaching peak production in their 2nd year.

Our parent stocks are double vaccinated against Goose Parvovirus Disease (Derzsy's Disease).

Goslings available from March 2014 until July 2014.
